

NIKOLAJ KUNSTHAL

PRESS RELEASE

“THE LAKE: WORKS FOR RADIO”

January 10-24 2016

Première event: Saturday January 9 2016, 5-7pm

Participating artists: Gry Bagøien (DK), Hildur Guðnadóttir (IS), CM von Hausswolff (SE), Klara Lewis (SE), Pejk Malinovski (DK), Skuli Sverrisson (IS), Maia Urstad (NO) and Jana Winderen (NO).

In collaboration with The Lake Radio, Nikolaj Kunsthal presents a new and pioneering format: a set-up for listening in which eight Nordic artists present each their take on what sound on the radio may be today.

In recent years, radio art has become a part of a larger and wider field of sound and media art with many different actors such as artists, independent radio stations and organisations. One such actor is the alternative, non-profit, 24 hours radio channel The Lake that since 2014 has presented a wealth of musical genres and journalistic features, sound and radio art. With its new project *Works for Radio*, The Lake brings together some of the most central and experimental Nordic sound artists to create newly produced radio art. The selecting of artists for *Works for Radio* has taken place as a relay with The Lake first commissioning works from CM von Hausswolff (SE), Hildur Guðnadóttir (IS), Jana Winderen (NO) and Pejk Malinovski (DK). These four artists have then been given the task each to name one artist that is particularly interesting to them, and subsequently Klara Lewis (SE), Skuli Sverrisson (IS), Maia Urstad (NO) and Gry Bagøien (DK) have been invited.

The eight new pieces will receive their first performance at a very special première event at Nikolaj Kunsthal for which all the artists will be there to present their works. With this set-up for listening, The Lake and Nikolaj Kunsthal together provide the space for a focused listening experience, and these presentations of radio art will also be broadcast directly on The Lake.

After the première, the eight sound pieces will be exhibited at Nikolaj Kunsthal's Tower Space in the period from January 10 to 24, and they will furthermore be featured in regular rotation on www.thelakeradio.com
